Make the Invisible Visible (MTIV)

Immersive, visual and playful towards sustainable cities

FH Zentralschweiz

HSLU and University of Sarajevo

International and Interdisciplinary
Students work in groups.

The two block weeks are carried through in collaboration with University of Sarajevo. Group work is based on sustainability scenarios of ETH Zurich.

To bring the scenarios to life, the students develop experience prototypes for data visualisations, apps, games, chatbots or extended reality environments.
