

Relevant professional qualifications 2022**Courses:**

A	Architecture	(full-time, part-time, and while working)
IA	Interior design	(full-time and part-time)
DCA	Digital Construction	(Full-time and part-time) with majors in Architecture (A)
DCS	Digital Construction	(Full-time and part-time) with the majors in Building Technologies (BT) and Structural Engineering (SE)
B	Civil Engineering	with majors in Construction and Structure (C&S), Transport and Water (T&W) and Building Envelope (BE) (full-time and part-time)
G	Building technology Energy	with majors in heating, ventilation, air conditioning, sanitation (HVAC) and Building Electrical engineering (BEE) (full-time, part-time and while working)
E	Electric Technology and Information Technology	(full-time, part-time and while working)
M	Machine technology	(full-time, part-time and while working)
DE	Digital Engineering	(full-time, part-time and while working)
MT	Medical technology	(full-time, part-time and while working)
WI	Industrial engineer Innovation	(full-time, part-time and while working)
EESE	Energy and Environmental Systems Engineering	(full-time and part-time)

Legend:

- 1 The professional qualification with a technical BM (A + IA: also structural BM) enables admission to the corresponding course. If you have another BM degree, we strongly recommend that you acquire an additional qualification.
- 2 The decision on admission to the relevant course is the responsibility of the Head of Bachelor & Master in consultation with the course director. An additional qualification (internship) may be required.

In all other cases, admission to the relevant course takes place only after an admissions interview. If you have a vocational or high school diploma, an internship of 12 months is usually required.
