Partner University

Mahidol University, MUIC

Focus

Mahidol University-MUIC is ranked number one on the Financial Times Ranking of Thai universities and is one of the most recognized universities in Asia.

The international professors at Mahidol University offer lectures and workshops on the topic of sustainable business models, success stories in Asia, intercultural communication, and leadership expectations in Asia. The lectures are supplemented by company visits.

For more information about the specific program, go to www.hslu.ch/iw-bangkok.

Date

February 7–12, 2021

Climate

In February the sun usually shines for at least eight hours per day. Even when it rains, temperatures are usually still warm, ranging from between 20C to 33C. Be aware that humidity tends to be high. The intensive air-conditioning inside many buildings can make the inside temperatures seem quite cool in comparison to outside. Take a sweater to wear inside.

Travel

Economy return flight from Zurich to Bangkok approx. CHF 800 to CHF 1,300 (varies depending on how early the booking is made, choice of airline, direct flight or one-stop flight, seat selection, luggage etc.)

Accommodation

There is an ample supply of hotels in Bangkok with various price ranges. The partner university will make a recommendation for a hotel near the university and inform about any special rates. Approx. cost CHF 95 to CHF 130 per night incl. breakfast, depending on choice of hotel, currency fluctuations and time of booking. The prices are per hotel room so the room price is halved if you share a room.

Lead

Prof. Dr. Claus Schreier
